

EBay Sales

It is not my intention to influence prices of frames and bikes sold on eBay; I have no financial interest in any sale. It is simply a record of sales since the end of 2005, to give buyers and sellers an idea of what the various models go for.

Complete bike unless listed as "frame" (Highlighted in Yellow.) in which case it is frame only. There were more frames built in the mid sizes, from 55 cm. to 60 cm. (C to T) Sizes above and below this range are rarer, but on the other hand, there is less demand for these sizes.

Copy the Sale Number into an eBay search to view the individual items. On the older sales, photos will have been removed.

Dave Moulton
